19. 2003-10-B019 –(VPA) DNV - Underclassmen Films Ltd. is proposing to film scenes for a feature production at Neptune Terminals in North Vancouver. The filming is all on the upland except for some scenes involving actors in the water and a boat simulating a collision with a barge. There are no pyrotechnics associated with the on-the-water filming. VPA letter to be sent Oct. 17/03.
20. 2003-10-B020 – VPA (VPA) Vcr – VPA proposes maintenance repairs and replacements for the bullrail and waler at Centerm berths 5 and 6. Submitted to BEREC directly by email on Oct. 28th. VPA letter to be sent Nov. 4/03.
21. 2003-11-B021 – IOCO (VPA) - Referral for a barge access ramp at Ioco. This proposal is virtually identical to one reviewed by BEREC under 0002B014, in 2000. The ramp (actually more of a gangway, for foot traffic) will be delivered pre-fabricated for minimal on-site work, and will be mounted on top of the wharf deck. There will be no in-water work. VPA’s letter sent on November 26, 2003.

22. 2003-12-B022 - Dow Chemical Canada Inc. / Vancouver Pile Driving Ltd. (VPA) Vcr - Application to repair the fendering systems on two dolphins at the Dow loading facility at Centerm. The VPA letter will be sent Dec. 15/03
23. 2003-12-B023 - Neptune Bulk Terminals (Canada) Inc. (VPA) DNV – Application for the emergency replacement of a timber bollard pile at berth 2 of its North Vancouver terminal. The VPA letter to be sent Dec. 23/03.
24. 2003-12-B024 - The Vancouver Rowing Club (VPA) Application proposing to replace 12 aging steel "H" piles and to twin 20 aging timber piles at its Coal Harbour facility. (There will be no float reconfiguration or other physical works under this project.) The VPA is proposing to release the attached Schedule on Wednesday, December 24, 2003.
25. 2003-12-B035 – Environment Canada PEC Site (VPA) Application by Environment Canada to carry out a sampling program on the foreshore fronting the PEC and Vancouver Wharves sites in West Vancouver. (These works are on VPA property.) The proposed works include the installation of two drive point piezometers (on a number of separate occasions) and six continuous multichannel tubing (CMT) piezometers, and sampling these on 3 occasions in January, 2004 and possibly on a number of occasions later in 2004. VPA letter to be issued Dec. 22/03.
